# Problem Solving

“All life is problem solving.” –Karl Popper

## Innovation

New match solution and need.

## Design

Innovation when pulling from needs.

Industrial design      Graphic design  
Product design      Engineering design  
Landscape design      Furniture design  
etc.

## Design Thinking

Design process applied to something other than visible artifacts (e.g., services, processes, business challenges).

Designers  
who “code”  
(e.g., css)

vs.

*Figma* and  
other tools.

**David Cole**

Former Head of Design at Quora

## Designers Will Code

Should designers code? It's an im that most designers can't and don't argue about theoretical ideals, but debate irrelevant.

This is significant, because the ab craftsmanship. It teaches you bot Jeremy Bell of *Teehan+Lax* argues way to work [1]:

We spend hours designing for a start by producing mockups tha aesthetics but also how it works creative process.

# Discussion

What product contexts justify “Ian Spalter” levels of investment in design?

What approaches can product organizations with fewer resources use to get 80/20 results?

# Alpha Assets – Start with the End in Mind

*allbirds*

$\alpha$

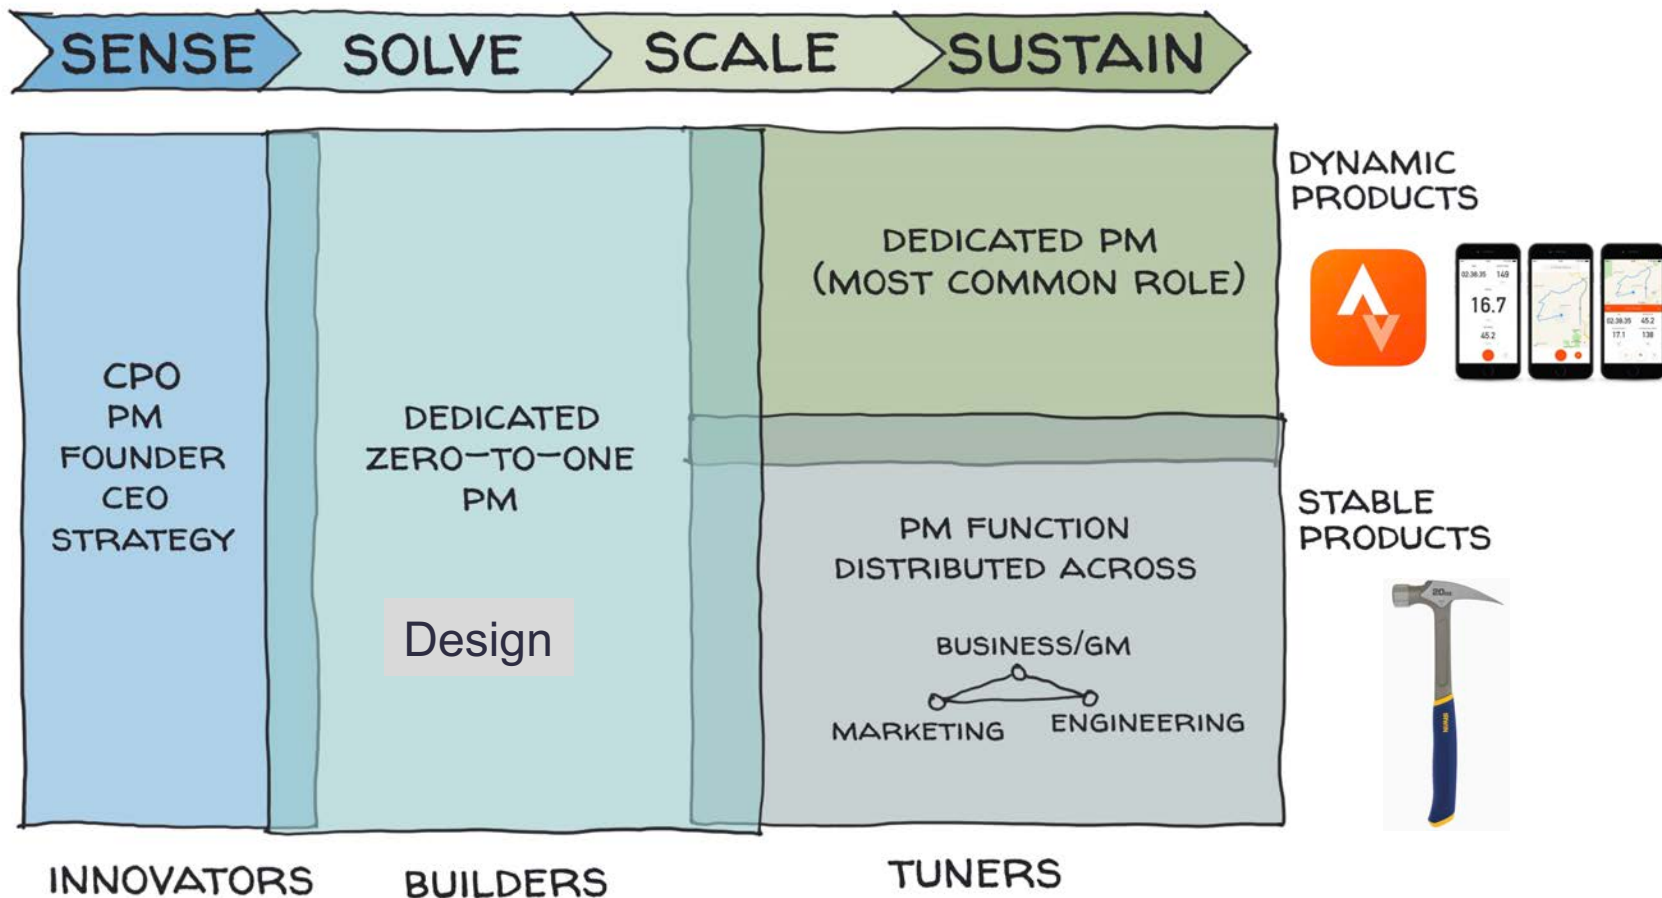

# Core Principles of design (little d)

- Above all else make sure the user can do the job easily. Supremacy of clear, simple UI/UX, and fast tech that just works. *Calibrated intuition useful, but data wins.*
- Then, reinforce brand values with good aesthetics. (Plus, good aesthetics is an honest signal of other desirable attributes of the brand, e.g., care, quality, service.) *Helpful if you as PM know it when you see it. If not, enlist a network of friends and colleagues with great taste.*
- 80/20 on cost. Spend based on context (*Instagram* vs. *Allbirds* vs. *your side hustle*.) Agency pros are usually better, but can be really expensive.

## Initial brainstorm ideation

- + Distinctive (out OXO OXO!)
- + Speaks to ergonomics (out OXO OXO!)
- + Is ergonomic (out OXO OXO!)
- Challenging intersection between handle and scoop
- Lacking visual balance (a bit awkward)

- + A balanced Craft + Design philosophy
- + Memorable and pure
- + Ergonomics

(57) **CLAIM**  
The ornamental design for an ice cream scoop, as shown.

**DESCRIPTION**

FIG. 1 is a perspective view of an ice cream scoop with a two piece handle showing our new design;  
FIG. 2 is a right side elevation of the ice cream scoop of FIG. 1;  
FIG. 3 is a left side elevation of the ice cream scoop of FIG. 1;  
FIG. 4 is a top end view of the ice cream scoop of FIG. 1;  
FIG. 5 is a bottom end view of the ice cream scoop of FIG. 1;  
FIG. 6 is a top view of the ice cream scoop of FIG. 1; and  
FIG. 7 is a bottom view of the ice cream scoop of FIG. 1.  
FIG. 8 is a perspective view of an ice cream scoop of an unitary construction showing our new design;  
FIG. 9 is a right side elevation of the ice cream scoop of FIG. 8;  
FIG. 10 is a left side elevation of the ice cream scoop of FIG. 8;  
FIG. 11 is a top end view of the ice cream scoop of FIG. 8;  
FIG. 12 is a bottom end view of the ice cream scoop of FIG. 8;  
FIG. 13 is a top view of the ice cream scoop of FIG. 8; and  
FIG. 14 is a bottom view of the ice cream scoop of FIG. 8.

**1 Claim, 6 Drawing Sheets**

**Claim 1 from Utility Patent 9,173,527**

1. An ergonomically designed ice cream scoop, comprising:
  - a handle;
  - and a scoop head integrally attached to the handle
    - having an irregular bowl for receiving an ice cream therein
    - with a generally spade-shaped leading edge
      - integral with a portion of the bowl and
      - extending outwardly therefrom for scooping an ice cream out of a container,
  - wherein the bowl is generally an oblong shaped scoop member attached at one end of the handle at an approximately 45 degree angle from a longitudinal axis running the length of the handle.

## Belle-V

Silver | Kitchens | 2014

The Belle-V ice cream scoop is a solid aluminum scoop with a classic, ergonomic design that is made to last. The angled head works with the natural rolling action of a user's wrist to give maximum leverage to easily scoop the hardest ice cream. The spade-shaped edge helps users get into those hard-to-reach corners at the bottom of the ice cream container.

Designed by Jeff Salazar, IDSA, Karl Ulrich, Alan Cook, Gerard Furbershaw, Jeff Smith, Junggi Sung and Ken Wood of Belle-V

# What's the Scoop?

- No product category is so mature you can't innovate.
- No product is so simple that it doesn't present commercialization challenges.
- Conceptual insight + excellent industrial design = wow product.
  - Business discipline also important!
- Crowdfunding can be a nice way to launch a product.
- Great product does not ensure a great stand-alone business.
